The astrological mirrors for the zodiacal trump cards are the trumps associated with the signs opposite those corresponding to the first trumps. The planetary trumps are correlated to the signs their planets rule, and the mirrors are the opposite signs; there is some redundancy due to dual rulerships. The elemental trump cards are assigned mirrors that relate to the signs opposite their modern planetary rulers. The alternate mirrors have various derivations, either zodiacal or numerological; since there is no elemental Earth trump, the Fool as Air is paired with the World.
